# Storage Solutions

## Morrison-designed Parts Carts increase line efficiency.

Morrison Parts Carts are designed to easily and neatly store all of your container-handling sets. Each cart provides a visual guide so there is never a question where each component of your container handling system is stored. In addition, carts provide enclosed storage for any extras you may wish to keep with your container-handling sets.

## Parts Carts provide a series of BENEFITS.

- REDUCE CHANGEOVER TIME by keeping all parts together and clearly labeled.
- Slim, mobile Parts Carts mean that entire change part sets can be wheeled up to your machine, AVAILABLE FOR CHANGEOVER AT YOUR FINGERTIPS.
- PREVENT DAMAGED PARTS by limiting the amount of handling necessary.
- WASHDOWNS CAN BE DONE EASILY AND QUICKLY since all components are designed from waterproof plastic and stainless steel.

## Enjoy greater flexibility and control.

These kinds of benefits make Parts Carts a must-have for every facility using changeover components. Keep your production facilities running efficiently – order a Parts Cart for your container handling sets.
